

This is a screenshot of my academic transcript from the student portal of Adama Science and Technology University. It includes all the courses and grades I have taken up to now. For the Second Semester of the Third Year, the average is not yet calculated in the system, but all the grades have already been submitted. Once the average is calculated and submitted, my cumulative GPA (CGPA) will be approximately 3.107. I am currently waiting for the official interim transcript, which will be provided soon by my university.

If necessary, I can provide additional verification from the portal. I understand that sharing login credentials is not standard practice, but if you require direct access to verify my records, I am willing to cooperate and assist in any secure and appropriate way. Please let me know if this temporary solution is acceptable, or if you advise waiting for the interim transcript. NOTE: Below is my student ID if it's needed for further verification
